Why read graphic novels?

They improve reading comprehension.

Graphic novels have text that readers must decode, analyze, and comprehend. Kids must follow plots and character development. They must understand cause and effect, and they must learn about perspective. All these things improve reading comprehension.

They are engaging.

Often, especially for reluctant readers, graphic novels add the extra support kids need to help them through a text. The combination of text and pictures provides context for stories that they may otherwise not completely understand.

They are high-quality reading material.

Just like traditional novels, graphic novels have exciting and complex plots, characters, and conflicts. The only difference is that graphic novels have more images to support the text.
